

## **MIT College of Engineering announces Networking Course in association with D-Link Academy.**

The D-Link Certified Specialist (DCS) program covers networking theories and configuration lab modules. The purpose of DCS training is to help participants better understand network standards, protocols, functions, and how to manage network devices. Lab modules cover simple and practical hand-on scenarios. Lab practice will help to familiarize participants with D-Link products and solutions. After DCS training, participants can register for their **DCS test** and earn their official **DCS certification**.

DCS-Switching certification	
<ul style="list-style-type: none"> <li>▪ Chapter 1: Network Essentials</li> <li>▪ Chapter 2: D-Link Switch Operation</li> <li>▪ Chapter 3: VLAN</li> <li>▪ Chapter 4: The Spanning Tree Protocol</li> <li>▪ Chapter 5: D-Link Switch Stacking</li> <li>▪ Chapter 6: Routing</li> <li>▪ Chapter 7: D-Link Switching Features</li> </ul>	

Course	Duration	Training Fees	Training Kit & Certification Fees
<b>DCS</b>	<b>27 Hrs</b>	<b>Rs. 3000</b>	<b>Rs. 3500</b>

**Course Commencement: As per the no of students and their preference.**
